

Cloud Workplace Foundation

AVD and Windows 365 under one operational framework, for employees and AI agents alike.

Our AVD Foundation harnesses cutting-edge best practices and Infrastructure as Code (IaC) to deliver swift deployment perfectly tailored to your unique requirements. Armed with over 1,000 pre-configured software packages via RealmJoin and seamlessly integrated with Entra ID and Intune, we present a platform that's not just powerful, but supremely adaptable.

Benefits at a Glance

Fast-Track

Leverage Infrastructure as Code for rapid, secure, and scalable AVD deployments, ensuring fast value and industry standard compliance.

Enhanced Security

Enhance your virtual desktop security with Entra ID and Intune integration, conditional access, and MFA requirements.

Scalability and Flexibility

Utilize cloud capabilities for flexible, scalable virtual desktop infrastructures that meet workload demands and support non-native client applications.

Streamlined Software Lifecycle

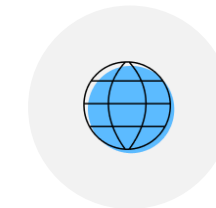

Access over 1,000 pre-configured software packages with RealmJoin, or customize solutions for easy application management and deployment.

Hassle-Free Management

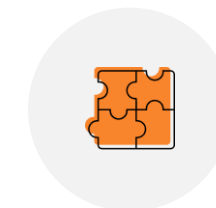

Opt for a managed service to consume AVD environments worry-free, with continuous updates and maintenance handled by experts,

Zero-Touch
