

# Microsoft Defender ATP Technical POC

Remote 2-Day Workshop | 3.000 €

## Microsoft Defender ATP as Unified Endpoint Protection

Microsoft Defender ATP is a unified endpoint security platform for preventative protection, post-breach detection, automated investigation, and response. Microsoft Defender ATP protects endpoints from cyber threats, detects advanced attacks and data breaches, automates security incidents, and improves security posture.

### Have an overview about modern Endpoint Protection

- Security Overview
- E5 Security Framework
- Zero Trust

### Better understand and mitigate potential threats

- Implementation
- Configuration
- Rollout

### Deploy 25 PoC endpoints and improve their security

- Incident handling
- Hunting
- Integrations & APIs
