

Microsoft Threat Protection POC

Remote 3-Day Workshop | 4.750 €

Microsoft Threat Protection as Enterprise Defense

Microsoft Threat Protection is a unified pre- and post-breach enterprise defense suite that natively coordinates detection, prevention, investigation, and response across endpoints, identities, email, and applications to provide integrated protection against sophisticated attacks.

Have an overview about modern Entity Protection

- Security Overview
- E5 Security Framework
- Zero Trust

Better understand and mitigate potential threats

- Implementation
- Configuration
- Rollout

Deploy 25 PoC clients and holistically improve their security

- Incident handling
- Hunting
- Integrations & APIs
