Security Offering

Microsoft Office 365 ATP Technical POC

ⓘ **Remote 2-Day Workshop | 3.000 €**

Microsoft Defender ATP as Unified Endpoint Protection

Microsoft Office 365 Advanced Threat Protection (ATP) is a cloud-based filtering service to protect your company against viruses and other malware posed by email messages, links and collaboration tools. Office 365 ATP can protect Exchange Online and other Microsoft 365 services in your organization against the newest viruses and unidentified complex threats that have not been studied yet and cannot be recognized by the latest virus signature databases of most antiviruses.

Have an overview about Office 365 ATP capabilities

— Security Overview
— E5 Security Framework
— Zero Trust

Better understand and mitigate potential threats

— Implementation
— Configuration
— Rollout

Deploy 25 PoC users with EOP and Office 365 ATP

— Incident handling
— Automated Response
— Integrations & APIs
