

Glueck & Kanja recognized as winner for 2017 Microsoft Enterprise Mobility Partner of the Year

Offenbach, Germany — June 1, 2017 — Glueck & Kanja Consulting AG today announced it has won the 2017 Microsoft Enterprise Mobility Partner of the Year Award. The company was honored among a global field of top Microsoft partners for demonstrating excellence in innovation and implementation of customer solutions based on Microsoft technology.

The solution "The Future Workplace - Fast Lane to Cloud Client" convinced the Microsoft jury. The blueprint for a future-proof IT infrastructure based on Azure AD, EMS, Windows 10 and Office 365 is already used today by global companies like DB Schenker. Glueck & Kanja has replaced the traditional deployment approach for Windows OS and Windows Applications, identity management and security architecture with a "100% cloud" model, thus deploying customer infrastructures with thousands of workstations in distributed locations without local servers.

Christian Kanja, CEO of Glueck & Kanja, is very pleased about the award from Redmond: "We saw the tremendous opportunities of a complete cloud architecture for large infrastructures at an early stage and combined the experiences from partial aspects to blueprint. With achieving the award Microsoft has now acknowledged that we are on track with our effort."

21 Awards were presented in several categories, with winners chosen from a set of
22 more than 2,800 entrants from 115 countries worldwide. Glueck & Kanja was
23 recognized for providing outstanding solutions and services in Enterprise
24 Mobility.

25 The Microsoft Enterprise Mobility Partner of the Year Award honors
26 Glueck & Kanja as a partner that has displayed outstanding growth in deploying
27 and driving Enterprise Mobility + Security solution for customers. The winning
28 nomination will demonstrate innovation, competitive differentiation, and
29 customer value that results in a sustainable business while showcasing the
30 benefits of Microsoft's Enterprise Mobility + Security offerings in helping
31 customers secure the identity, device, and documents.

32 "We are honored to recognize Glueck & Kanja as WINNER of the 2017 Microsoft
33 Enterprise Mobility Partner of the Year award", said Ron Huddleston corporate
34 vice president, One Commercial Partner, Microsoft Corp. "Glueck & Kanja is a
35 prime example of the expertise and innovation we see in our Microsoft partner
36 community to deliver transformative solutions."

37 The Microsoft Partner of the Year Awards recognize Microsoft partners that have
38 developed and delivered exceptional Microsoft-based solutions during the past
39 year.

40 **About Glueck & Kanja Consulting AG**

41 Glueck & Kanja plans and implements IT infrastructures based on Microsoft
42 technologies such as Windows 10, Azure, Office 365 and Skype for Business. One
